Objective

Seeking a position as a junior software engineering intern. Looking for a place to develop my skills.

Experience

Yandex
February 2018 — May 2018

Practicing Front-End Developer

- Working with reactjs on the project Secret Santa

ACM ICPC
2014 — Present

Participant

- Quarterfinals, codeforces, topcoder

Hackatons
2016 — Present

Participant

- SibCode Hackaton from SibirSoftProject - 2015
- Hackatons from FirstLineSoftware - 2016, 2017
- Epam Data Science Hackaton - 2017

GitHub
2015 — Present

My projects

- Synchronization of directories - C#
- Platform for interactive student book - Java
- Parallel algorithms - C#
- Go Game - python
- Battle Sea Game - python, js

Qualifications

- Knowledge of algorithms
- Java, spring
- Python, django, scikit-learn, pandas, numpy
- C++ (using in competitive programming)
- C#
- postgres

- JS, ReactJS
- HTML, CSS
- Lisp, Haskell, Paskal

Education

Software Engineering   September 2016 — June 2020
Saint Petersburg State University

Data Analysis   September 2017 — June 2020
Computer Science Center
